16-06-15

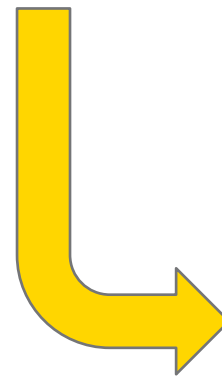

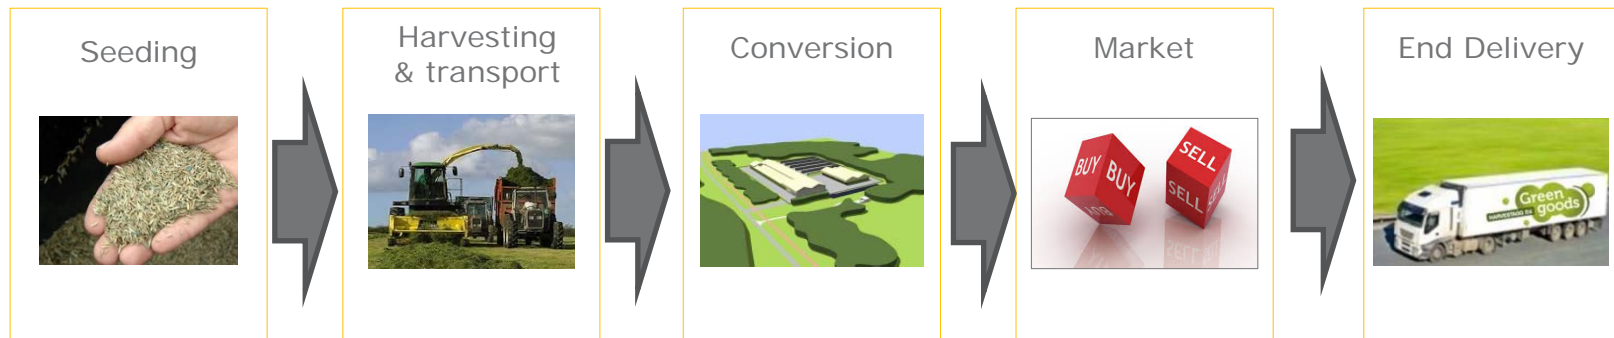

Wout de Groot, Manager Gasunie New Energy

Old versus new energy system

The Green Goods Farm of HarvestaGG focusses on building an end-to-end biomass conversion value-chain

New Energy is focusing on the biogas to bioLNG conversion

Power to Gas – Delfzijl

- Intention to build a 12 Megawatt plant
- Biggest of its type; major step in scaling up power-to-gas concept
- Production of hydrogen and syngas for the chemical industry
- The oxygen produced will be used in Torrgas' gasification plant
