

RIGHT's objective is to strengthen the competitiveness of the regional economy and innovation support capacity by ensuring access to a strong and adaptable workforce with the necessary skills to support future growth. In order to achieve this goal RIGHT will:

1. Identify innovation opportunities in the North Sea Region within the blue and energy sectors.
2. Uncover the skills gap barrier to innovation in these sectors.
3. Bridge the skills gap through pilot educational/training programmes.
4. Increase regional innovation capacity through knowledge sharing, shareholder involvement and long term implementation of tested models.
