Will you join the ride? Yes, at least after watching this great video from BITS!

North Sea places

This month, we had planned to host the North Sea Conference in the Flemish city of Bruges. As we had to postpone the event due to the pandemic, here is a bit of Bruges for you. We hope very much to see you in this beautiful place in May 2022.

Bruges is one of the best preserved medieval towns in Europe. Did you know that the historic city centre is a UNESCO World Heritage Site? Sometimes called Venice of the North, Bruges is renowned for its numerous canals and bridges.
