

G-PaTRA: Green Passenger Transport in Rural Areas

North Sea Region Conference 2018, Fredrikstad

G-PaTRA

- Will promote green transport and mobility
- By enhancing the capacity of transport authorities to reduce CO₂ from personal transport in remote, rural and island areas
- 13 project partners

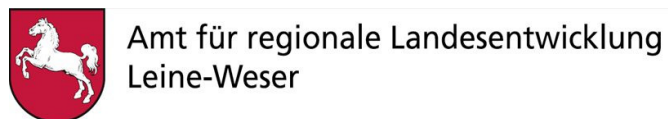

G-PaTRA: activities

- Embedding more zero emission vehicles and vessels in rural transport systems (through demonstration and business case development)
- Optimising and better integrating available publicly provided transport (through demonstration)
- Promoting car sharing in rural areas (through promotion and demonstration)
- Innovation capture and transfer
