TOPSOIL: Newsletter 2

20 year anniversary of the North Sea Conference

This year the North Sea Programme celebrated the 20 year anniversary of its annual conference. Over 300 attendants took part in the festivities and seized the opportunity to network and gather ideas for new projects. As an approved North Sea Region project, TOPSOIL was present to share knowledge with and acquire information from related North Sea Region projects.

A pilot in the picture: Drenthe (NL)

The TOPSOIL project in Drenthe has got off to a flying start. In cooperation with the Danish company SKYTEM, partners at Aarhus University and GDN-TNO, geo-magnetic data was collected in the rural area of the Drentsche Aa last February. These data are now being (re)interpreted to improve the mapping of the deeper underground in the region.

5 questions to Barry Bendall

As a conclusion to this TOPSOIL newsletter we asked work package leader of stakeholder involvement Barry Bendall the Rivers Trust some questions about his role in the project and about his expectations for the future.
